

The Sandlot - BWI / Baseball & Softball Training Facility

Dear Sandlot Customers,

To help ensure the safety of our customers traveling to and from our facility, we are providing a road map that shows an alternate and safer route into the Sandlot.

Traveling east on Ordnance Rd coming from Glen Burnie requires you to turn left into our facility. Because there is no turn lane or traffic signal into the business park, we are suggesting to our customers to use either the traffic light at the Home Depot entrance or to use the turn lane just past Home Depot and take Blades Lane. Follow the "Red" arrows on the map and go behind the business park to get to the Sandlot.

Although this may be a little more inconvenient, it will only take an additional 30 seconds but it will be a lot safer.

The State Highway Administration is conducting a 90 day review of the stretch of road in front of the business park. The hope is that they will recognize the need to add a traffic light and turn lane at our entrance. In the meantime, we want our customers to be aware of an alternate and safer route.

Sincerely,

Bob Lubaszewski

Owner
